IMMUNITY FOR ALTON.

Railroad Will Not Be Prosecuted in Oil Rebate Cases.

Chicago, Sept. 26.—It has been decided by Judge Landis, in the United States district court, that the Chicago and Alton railway shall not be further prosecuted for its connection with the Standard Oil company in the granting of rebates between Whiting, Ind., and East St. Louis., Ill.

It was claimed by Attorney General Bonaparte, whose letter was read to the court by District Attorney Sims, that Mr. Morrison, the predecessor of Mr. Sims in office, had promised immunity to the Alton road, provided it assisted in good faith in the prosecution of the Standard Oil company.

The attorney general therefore claimed that it was the duty of the government to stop further steps toward the punishment of the railroad for its part in the granting of the rebates being taken. The attorney general asked that the grand jury which had been summoned at the instance of Judge Landis to investigate the Alton railroad be discharged.

Judge Landis, in a statement which required fully thirty minutes for its delivery, declined to discharge the jury, but instructed its members that they had no further duty to perform in connection with the Chicago and Alton railroad. The court then called attention to a statement recently issued by President Moffett, of the Standard Oil company of Indiana, in which it was claimed that if the Standard Oil company was guilty of receiving rebates, no other manufacturer was innocent. The court directed the jury to investigate the conduct of other manufacturers and ordered that a subpoena be issued for President Moffett.

LAWYER PLACED UNDER BOND.

Alleged that He Aided Women to Escape from Alabama.

Montgomery, Ala., Sept. 26.—In a hearing before the criminal court on habeas corpus proceedings two women witnesses testified that they were taken away from the city by Attorney George Shreve and his brother, Jesse Shreve, who provided the money to go to Dallas, Tex. They say they were taken to Chehaw, nearby, in an automobile, and there boarded the train for Atlanta, and later went to Dallas, their tickets being bought by Jesse Shreve. As a result of the testimony, Judge William H. Thomas issued a rule to the Shreves to show cause why they should not be adjudged in contempt of court.

Dr. Frank Gaffey, a negro driver, is accused of murder as a result of criminal practice. Mrs. M. Johnson and Miss Mattie Brown were held as witnesses. They left and went to Dallas, Tex., and were returned after great difficulty.

The evidence indicated that they were gotten away by the two men named ,and the court has held them in bond of $4,500 each.

Named for President's Wife.

New York, Sept. 26.—"Mrs. Theodore Roosevelt," a dahlia named after the president's wife, is attracting considerable attention at the fair of the American institute in the Berkeley lyceum. It is a magnificent blossom of flame colors, five inches in diameter and resembles a chrysanthemum with the elongated, jagged petals peculiar to that flower. Several thousand varieties of dahlias are exhibited.

Street Car Conductor Mangled.

Savannah, Ga., Sept. 26.—P. B. Hodges, a conductor on the street railway was so badly mashed between his car and a work car on the line running to Best street Tuesday morning that he may die. He had started to shift the trolley when the work car ran into him, jamming him against his own car. He has a wife and children.

Surrenders to Sheriff.

Jackson, Ky., Sept. 26.—Former Sheriff Ed Callahan has surrendered to Sheriff Crawford on a warrant charging him with complicity in the murder of Dr. B. D. Cox, three years ago. The warrant was sworn out by Roger Callahan, a brother of the former sheriff and until a few weeks ago, his partner in business. Callahan was released on a $[illegible] bond.

NEBRASKA FOR TAFT

Republicans of That State Endorse Him for Presidency.

PENNSYLVANIA IS FOR KNOX

There Was Some Reluctance to the Taft Endorsement as Many Nebraska Republicans Favored Roosevelt for Another Term.

Lincoln, Neb., Sept. 2[illegible].—Secretary Taft was on Tuesday endorsed for the presidency by the republican state convention.

In the report of the committee on resolutions, Secretary Taft was endorsed as follows:

"We recognize in the Hon. William H. Taft, of Ohio, a man whose personal character and whose long public service mark him as preeminently the man under whose leadership these policies may be perpetuated and the republican party may again merit and receive the approval of th enational electorate."

SECRETARY W. H. TAFT.

There was some reluctance to the Taft endorsement, as many Nebraska republicans strongly favored Theodore Roosevelt for another term.

Five Parites in Convention.

All the political parties represented on the primary ballot held their state convention here Tuesday.

Of the five parties, the republicans, democrats and populists gathered in considerable numbers. The prohibitionists held no convention, and the socialists had one delegate, who certified to a platform and organization with the secretary of state.

The feature of the democratic convention wa sthe speech of William J. Bryan.

The democratic platform opens with commendation of William J. Bryan. It opposes the centralization idea, and declares for the election of United States senators by direct vote. Immediate revision of the tariff is urged and an income tax favored, as is also the vigorous enforcement of the criminal law against "trusts" and "trust magnates."

Pennsylvania for Knox.

Harrisburg, Pa., Sept. 26.—United States Senator Knox's candidacy for the nomination for president next year will be formally endorsed by the 20th annual convention of the Pennsylvania State League of Republican clubs, in session here. . Mr. Knox sent a letter to the convention from his Valley Forge farm explaining his absence.

The platform of the convention will take a strong stand against those responsible for the alleged fraud in the furnishing of the new state capitol and demand their speedy punishment. It will also endorse the Ohio ship canal project and the plan for the deepening of the channel of the Delaware river.

Jury Acquits Gilmore.

Baxley, Ga., Sept. 26.—Superior court has adjourned. Clarence Gilmore, who killed his friend, Burnside, some time ago for an alleged assault upon the former's wife, was promptly acquitted. They are people of intelligence and stand high a this place.

ALABAMA MAY GO DRY.

Prohibition Wave Sweeping the State. Elections Pending.

Birmingham, Ala., Sept. 26.—The prohibition wave is sweeping, section by section, all over the state.

This, the bitterest opponents of prohibition are free to admit. Last week Butler county, admittedly one of the strongest whisky counties in the state, went prohibition by 450 majority. Elections are pending now in Pickens, Etowah and Calhoun counties, with the odds favoring a positive victory for prohibition.

While Governor Comer will make no admission to that effect, the report is very strong that he will include in his call for an extra session of the legislature, the consideration of a state prohibition. This call will be issued about Oct. 7, and the law-making body will reconvene about Nov. 1

The fact that the governor is a strong prohibitionist himself, and the additional fact that much pressure is being brought to bear ,causes the prohibitionists in Jefferson county to feel considerably elated and encouraged.

THREE HURT IN WRECK.

Accident on Wrightsville and Tennille Railroad.

Wrightsville, Ga., Sept. 26.—The afternoon passenger train No. 3, on the Wrightsville and Tennille railroad, was wrecked Tuesday afternoon at 2:30 o'clock at Young's crossing, about a mile from Wrightsville.

The train was carrying seven passenger coaches and a freight car. The cause of the accident is unknown.

Engineer Stokes, of Hawkinsville, was very badly scalded from escaping steam. His injuries, however, are not regarded as fatal.

The others injured are:

W. L. Simpson, of Wrightsville; W. L. Joiner, of Dublin.

Neither of these are, however, supposed to have received very serious injuries.

Quite a number of others were badly shaken up.

Attempted Assault May by Negro.

West Point, Ga., Sept. 26.—Posses are out searching for a negro who attempted to assault Mrs. Role Jones, a widow living near Pinewood cemetery on the edge of town. The negro, who was about twenty years of age, made his entrance by the rear stairs and pointing a revolver at Mrs. Jones, told her if she made a noise he would kill her. Mrs. Jones screamed and the negro grasped her by the throat. Her screams brought her sister-in-law, Mrs. Lizzie Christian, and daughter living near by, to the rescue. Mrs. Christian shot at the negro, who ran. Five arrests have been made. If the right man is apprehended he will undoubtedly be summarily dealt with.

Crushed to Death by Cars.

Macon, Ga., Sept. 26.—J. P. Hunt, an employee of the Central railway, was crushed to death in the southern portion of the yards here Tuesday night when struck by some freight cars. His arm and leg were broken and hew as otherwise badly mashed, but was not run over by the wheels. He belonged to a switching engine, and was struck in the dark. He was an unmarried man, formerly conducting a grocery store with his brother. The coroner is investigating the case.

Doctors Meet at Birmingham.

Birmingham, Ala., Sept. 26—The first annual convention of the southern and gulf branch of the American Medical association began here Tuesday with representatives present from Alabama, Georgia, Florida, Mississippi, Louisiana and Tennessee. In the absence of Dr. H. H. Martin, of Savannah, Ga., the president, Dr. Mack Rogers, of Birmingham, vice president, presided.

Dock Strikers Lose.

Antwerp, Sept. 26.—The strike of the dock laborers of this city which has been going on since last June, came to an end Tuesday with a sweeping victory for the federal convention of ship owners. At a meeting of the strike leaders it was decided that the men should return to work unconditionally, at the terms of the employers.

CASHIER IS MISSING

Warrant Issued Charging Defalcation of Funds.

PART OF SHORTAGE PAID

It is Said, However, that the United States Authorities Will Prosecute the Delinquent Bank Official—Warrant for Bookkeeper Also Issued.

Baton Rouge, Ala., Sept. 26.—Oscar Kondert, formerly cashier of the First National bank here, is missing, while United States officers are now searching for him with a warrant charging him with a defalcation of $74,000. It is alleged that the shortage was discovered over a month ago but that Kondert and his friends made good the greater part of the loss.

The bank officials, it is said, declared themselves satisfied, but the federal officials decided to prosecute the cashier.

Kondert is 43 years old and has been for several years one of the most prominent local politicians. He was not married but supported his mother and sister and bore an excellent reputation.

A warrant was issued for the arrest of Hillary Schroeder, bookkeper, on the same charge as made against Kondert.

TEXAS FIGHTS WESTERN UNION.

And Also Pullman Company—Proposes to Prevent Them Doing Business.

Austin, Tex., Sept. 26.—Attorney General Davidson, of Texas, instituted suit against the Pullman company and the Western Union Telegraph company to prevent them from doing business in Texas and asking for permit fees of $100,000 from each company, on the amount due the state board on a capital stock of one hundred million dollars in each instance.

The petitions recite that both companies have been doing business in the state of Texas for a number of years and have never filed copies of their articles of incorporation or taken out a permit to operate in Texas as required by law. That because of these omissions they should be enjoined from doing business here and it is so prayed.

The petitions specifically state that they are not intended to interfere with any intrastate business, but are designed only to oust the companies from doing an interstate business.

Service was had on the local agents and the attorney general will endeavor to have the cases tried at the coming term of court.

Boll Weevil Wasn't There.

Atlanta, Sept. 26.—Assistant State Entomologist A. C. Lewis has just returned from a two day's visit to Jasper county, where he went to make investigations as the result of a report that the dreaded boll weevil had been brought there from Texas and was to be found in the cotton fields of President Harvie Jordan, of the Southern Cotton association.. Mr. Lewis spent two days making a thorough inspection of the cotton of Mr. Jordan and his neighbors, as the result of which he is able to announce that the reported appearance there of the boll weevil is unfounded. Mr. Lewis makes similar report regarding the alleged appearance of the boll weevil at Aragon, Ga., between Rockmart and the city of Rome.

Bubonic Plague Cases.

San Francisco, Sept. 26.—The totals in the bubonic plague situation to date are as follows: Cases verified, 43; deaths, 26; death percentage, 60.4 per cent; suspects under observation, 23. No statement was issued Tuesday by the board of health. One case and one death are Tuesday's additions to Monday's score.

Wakens With Child Dead in Arms.

Huntsville, Ala., Sept. 26.—When Mrs. J. W. Fox awakened Tuesday morning she found her three-months old baby boy dead in her arms. The babe had died during the night without a struggle. The family buried a two year-old daughter on Sunday.

...State exhibits in the general ...building the exhibits of North ...Carolina, South Carolina, Virginia, Missouri and California were the best. Really, these exhibits were extra good. Georgia, Kentucky and other States had good exhibits, but nothing to come up to the first five mentioned.

After you have been there a day or two you will find the best way to get value received for your money is to have all the fun you can, and for this purpose you want to go on the War Path (the same as the Midway of other expositions.) During all my stay I never met but one man from Florida on the Exposition grounds. That was Dr. Alderman. He was on the War Path every time I saw him. Of course, I was there too. Now to have the most fun you want to go to the Wild West Show—similar to Buffalo Bill's, but better. The horsemanship of the Indian girls was remarkable. They all rode astride on men's saddles, and were not surpassed in activity or their management of their horses by any of the men. I believe that for health and happiness every girl should be taught to ride horseback, and if any man is bogy enough to think that she ought to ride a side saddle he ought to be made to ride a side saddle all the balance of his days. Why a girl should not ride astride, same as a boy, is a question that no reasonable person will answer in the negative. The excellence and worth of womanhood as a helpmete for men, is coming to the front in many ways that fifty years ago would have been considered out of place and unlady-like. Be sure and see the Destruction of San Francisco, and take a railway tour through Colorado. See the perfect, normally-formed little woman 27 inches high, with a baby 20 months old which runs all about, talks intelligently for a child of its age and is almost as tall as its mother. Its father is an intelligent dwarf just a little larger than its mother.

In the Liberal Arts building I saw a beautiful brunett Assyrian girl, 19 years old, born in Damascus, the oldest city in the world. She said she did not like American men because they were too cold-hearted. I told her that was only an expression of modesty caused by being in company. She laughed and said she was glad I told her—she had taken it to be the nature of the men. I told her if she would just stay over here she would find American men to be fully up to date.

If you will keep memoranda and go all through you will see at the Exposition fourteen different types of man. They all differ in color, in statue and in expression. They no doubt differ in natural disposition, but they are all alike in one thing—they are all after the nickle.

TIRED AND SICK YET MUST WORK

MRS. AUG. LYON

"Man may work from sun to sun but woman's work is never done."

In order to keep the home neat and pretty, the children well dressed and tidy, women overdo and often suffer in silence, drifting along from bad to worse, knowing well that they ought to have help to overcome the pains and aches which daily make life a burden.

It is to these women that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, comes as a blessing. When the spirits are depressed, the head and back aches, there are dragging-down pains, nervousness, sleeplessness, reluctance to go anywhere, these are only symptoms which if heeded, are soon followed by the worst forms of Female Complaints.

Lydia E. Pinkham's Vegetable Compound

keeps the feminine organism in a strong and healthy condition. Prevents Inflammation, Ulceration, displacements, and organic troubles, prepares for child-birth and to carry women safely through the Change of Life it is most efficient.

Mrs. Augustus Lyon, of East Earl, Pa., writes:— Dear Mrs. Pinkham:—"For a long time I suffered from female trouble and had all of aches and pains in the lower part of back and sides. I could not sleep and had no appetite. Since taking Lydia E. Pinkham's Vegetable Compound and following the advice which you gave me I feel like a new woman and I cannot praise your medicine too highly."

Mrs. Pinkham's Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. Out of her vast volume of experience she probably has the very knowledge that will help your case. Her advice is free and always helpful.

NEWS OF CITY AND COUNTY CONDENSED

J. M. Barker of Old Town was a business visitor to Gainesville yesterday, having come to look after some matters in the United States land office.

Mrs. J. J. Sanders of Martin, who has been on a visit to Ft. White, spent Wednesday in this city with her sister, Mrs. J. F. Bunch. She was en route to her home.

Mrs. McGriff of Tallahassee, mother of W. A. McGriff of Micanopy, arrived in the city Wednesday night. She was enroute on a visit to her son, where she will remain for the next few days.

James Miller of Jacksonville, who has been in the city for the past few days, has returned to that city. He is related to Mrs. C. W. Parham, West Court street, and spent part of the time as a guest of Mr. and Mrs. Parham.

One of the worst features of kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney Cure at the first sign of trouble as it corrects irregularities and prevents Bright's disease and diabetes. J. W. McCollum & Co.

With a desire to keep up with the times, the management of the Atlantic Coast Line is having the freight and passenger station treated to a coat of fresh paint. The management is to be commended, as the improvement is very noticeable, and will add considerable to the appearance of that section of the city.

F. G. Sampson, Boardman, and S. H. Gaitskill, McIntosh, were among the visitors to Gainesville yesterday. Mr. Sampson enjoyed the distinction before the freeze of 1895 of owning the largest, handsomest and most prolific orange grove in the State, and is yet prosperous. Mr. Gaitskill is now one of the leading stock raisers of Florida.

CARD FROM DR. KELLEY.

Says School Will Not Open Monday, and Explains Reason Why.

To Teachers and Patrons of Gainesville High School:

Owing to the resignation of Prof. McBeath, it will be impossible for the school to open on the 30th inst. I am hopeful that I can arrange for the opening soon, and, when ready, will give you notice through the columns of The Sun. Very respectfully,

J. L. KELLEY.

Gainesville, Sept. 26, 1907.

The New Pure Food and Drug Law.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. J. W. McCollum & Co.

A YOUTHFUL FORGER.

Young Colored Boy of This City Forged Check on His Employer.

There has come to light in Gainesville a forgery, the offender of the law being a young colored boy about ... years of age. To the check was forged the name of the employer of the boy, and the paper was regularly filled in for $6. It was on part payment of a bicycle which the boy had purchased from V. T. Newbern, and which had been accepted in good faith, as the boy brought the same in proper and regular form.

When the employer happened to be in Mr. Newbern's place of business Wednesday, Mr. Newbern recalled the fact that his boy (meaning his employer) had bought a wheel upon which to deliver goods. The employer remarked that he did not understand where the boy had money to buy a bicycle, when he was apparently "hard up" all the time. To this remark Mr. Newbern replied that he had presented his (the employer's) check for $6 on the first payment, but that the check had not yet been presented, as he had not yet made the bank deposits.

Investigation showed that the little rascal had boldly forged the name of his employer to the check, had secured the wheel—and that was the last of it.

Owing to the tender years of the boy his name will not be divulged, as matters have been satisfactorily adjusted with his mother, but he should at least be given a severe public thrashing.

Happy Home Marriage.

A happy home marriage was solemnized in North Gainesville on Thursday, the contracting parties being Walter E. Adams of DeLand and Miss Lola Dykes, daughter of Mr. and Mrs. J. B. Dykes.

The ceremony occurred at the home of the bride's parents, Rev. Thos. P. Hay, pastor of the First Presbyterian church, officiating. It was a quiet affair, only members of the family of the bride being present.

Mr. and Mrs. Adams left immediately over the Atlantic Coast Line for Trenton, where they will visit the groom's relatives. After a visit there of a few days they will return to DeLand, where Mr. Adams is engaged in business, and where they will make their future home.

In the Mayor's Court.

In the mayor's court Thursday morning there were three cases. These were:

Ed Turner and L. E. Owens, engaging in a game of chance, $7.50 and costs each.

Henry Beasley, drunk, $1 and costs.

Butch Tisby, gambling, case was posponed until next Monday morning, owing to absence of witnesses.

TO KILL THE DANDRUFF GERM.

Is the Only Possible Way of Having An Effective Cure.

If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have thin brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ burrowing into the scalp, and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ; and there is no other preparation that will destroy that germ but Newbro's Herpicide. "Destroy the cause, and you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

PRODUCTION OF COAL IN U. S.

So far as known, the first mention of the occurrence of coal in the United States is contained in the journal of Father Hennepin, a Jesuit missionary, who in 1679 recorded a "cole mine" on Illinois river near the present city of Ottawa, Ill.

Coal was first mined in the Richmond basin, Virginia, about 70 years after Father Hennepin's discovery in Illinois, but the first records of production from the Virginia mines were for the year 1822, when, according to one authority, 54,000 tons were mined.

Ohio probably ranks second in priority of production, as coal was discovered there in 1755, but the records of production date back only to 1838.

The mining of anthracite in Pennsylvania began about 1790, and it is said that 55 tons were shipped to Columbia, Pa., in 1807. Reports of the anthracite coal trade are usually begun with the year 1820, when 365 tons (one for each day of the year) were shipped to Philadelphia from the Lehigh region. Before this, however, in 1814, a shipment of 22 tons was made from Carbondale, also to Philadelphia. It is probable that the actual production prior to 1820 was between 2,500 and 3,000 tons.

More than 50 per cent of the total production of coal in the United States from 1814 to the close of 1906, or 3,540,000,000 tons, was mined in Pennsylvania. The anthracite production in that State amounted to 1,854,906,000 tons, and the bituminous output was 1,695,926,682 tons. Illinois ranks second, with a total production of 594,551,163 tons, and Ohio third, with 460,626,939 tons. West Virginia, although not coming into existence as a separate State until 1863, ranks fourth, with a total production in 44 years of 396,166,956 tons. Alabama comes fifth, with 150,482,856 tons, and Maryland sixth, with 142,073,920 tons.

An advance chapter from "Mineral Resources of the United States, Calendar Year 1906," on the production of coal in 1906, by E. W. Parker, Chief Statistician of the United States Geological Survey, will soon be ready for distribution. Applications should be addressed to the Director of the United States Geological Survey, Washington, D. C.

Major Beverly W. Dunn, of the United States Army, has lately invented a new explosive which is claimed to increase the percentage of artillery destructiveness a thousand per cent in view of the fact that it doesn't explode until it is time for it to do effective work. The Government is now erecting near Philadelphia a large factory for the manufacture of this explosive, with Dunn in charge. Not very long ago the Major was approached by representatives of one of the foreign powers and offered a quarter of a million dollars for the formula of his chemical discovery! His reply was soldierly and patriotic: "Gentlemen, I am a soldier of the United States; and whatever I discover belongs absolutely to my Government!" That remark ought to put stars on Dunn's shoulders, oughtn't it?

The calm man is always loved and received. He is like the shade of a tree in a desert land, or a shelter in the time of storm. The question is asked: Who does not love a tranquil heart, a sweet-tempered, balanced life? It does matter whether it rains or shines, or what changes come—for they are always sweet, serene and calm. That exquisite poise of character which we call serenity is the last lesson of true culture. It is the full-blown flower of life.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonals.

So closely is romance interwoven with the commonplace that hardly a day passes without some romantic happening claiming our interest. No stories, perhaps, read with greater fascination than those of waifs whom fortune has carried into the lap of luxury. Every charitable institution in New York, says The October Delineator, has its records, as marvelous as fairy tales, about what has happened to fortunate foundlings adopted from its doors. There is a New York heiress who rides in a carriage on Fifth Avenue; there is a daughter of a German baroness, and there is a daughter in a royal house of Europe, all of whom came from the ranks of New York's forsaken waifs. None of them even dream of their origin, which is a secret buried in the safe of the institution from which they came.

The Bureau of the Census has just published Bulletin 83, which contains reports on wholesale slaughtering and meat packing, manufactured ice, and salt. These reports, which present the statistics of the industries for the calendar year 1904, form part of the census of manufactures of 1905, and were prepared under the supervision of William M. Steuart, chief statistician for manufactures. The report on manufactured ice was prepared by Hugh B. Meloy, of the Census Office, and that on salt by Charles E. Munroe, professor of chemistry in George Washington University.

YOUNG MURDERER SLAYS HIS BROTHER

Information of a Startling Nature Comes From Levy County.

MURDERER ONLY TEN YEARS OLD

Boys Are Adopted Sons of Prominent Planter of Newtown, Who Took Them as Matter of Sympathy—Tragedy Occurred Without Provocation.

Information come from Newtown, Levy county, to the effect that there recently enacted a horrible tragedy near that place, between two little boys, Thomas and William Hodge, aged about ten and twelve, respectively, in which the elder boy lost his life, his neck having been severed by a shot from a rifle in the hands of the younger brother.

It appears from the information, which is meager, that the two boys, who are sons of John Hodge, a well-known character of Levy county, especially in that vicinity, were in a manner neglected by their father. At any rate Columbus Horn, a well-to-do and kind-hearted farmer of the Newtown neighborhood, took them, and assumed the responsibilities of bringing them up in the way they should go, when they were small children.

The boys had frequent quarrels and disputes, of which nothing was thought, as that is common among children; but upon this occasion the two became engaged in a regular fight, the altercation resulting quite seriously.

It is not known just how the row started, as it is said that Mr. Horn was not present at the time. However, it came to such a point that the boys showed their blood. One rushed for a shotgun, while the other went for a rifle which he was apprised was conveniently near. The report goes that both fired, but the younger brother was the more exact in his aim, with the result that the first shot entered the elder boy's neck, breaking it and causing instant death.

No further information could be secured on the subject, but as the young murderer is so tender in years it is more than likely that he will be sent to the reform school.

Newtown is remotely divided from the rest of Levy county, with only a star mail route, hence it is difficult to secure prompt and definite information.

STOP THE STRENUOUS LIFE.

Weakens the Tissues and Lessens Organic Vitality.

The stress and strain of the strenuous life in both city and country leads towards stomach troubles.

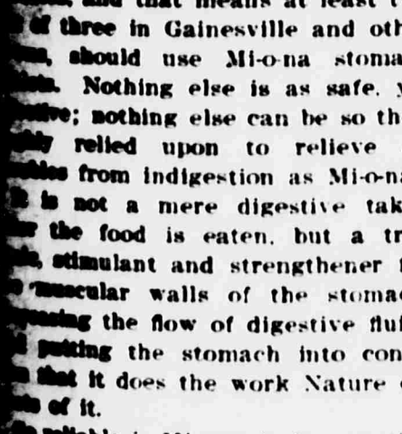
Five people suffer today where one did ten years ago with sick headache, dizziness, flatulence, distress after eating, specks before the eyes, bloating, drowsiness, sleeplessness and many other symptoms of indigestion.

All who are suffering with stomach trouble, and that means at least two out of three in Gainesville and other towns, should use Mi-o-na stomach tablets. Nothing else is as safe, yet effective; nothing else can be so thoroughly relied upon to relieve all troubles from indigestion as Mi-o-na.

It is not a mere digestive taken after the food is eaten, but a true tonic, stimulant and strengthener for the muscular walls of the stomach, increasing the flow of digestive fluids and putting the stomach into condition that it does the work Nature expects of it.

So reliable is Mi-o-na in its curative action that J. W. McCollum & Co., with every 50-cent box they sell, give a guarantee to refund the money unless the remedy does all that is claimed for it.

All affectation is the vain and ridiculous attempt of poverty to appear rich.—Lavater.



FATHER THOUGHT CHILD WOULD DIE

Suffered with Cuban Itch, and Sores Covered Body from Head to Foot—Would Claw Himself and Cry All the Time—Could Not Be Dressed—Mother Advised to Try the Cuticura Remedies.

CURED BY CUTICURA AT EXPENSE OF 75c.

"My little boy in the Spring of 1901, when only an infant of three months, caught the Cuban Itch from one of my neighbor's babies. Sores broke out from his head to the bottom of his feet. He would itch and claw himself and cry all the time. He could not sleep day or night. I had to wheel him in his carriage most all the while to keep him still. He could not bear to have his clothing touch him, and only a light dress is all he could wear. I can't begin to speak in words the suffering the poor child had to endure. I called one of our best doctors to treat him, and he said he had the Cuban Itch, and his treatment did not do any good. He seemed to get worse. He suffered so terribly that my husband said he believed he would have to die. I had almost given up hope when a lady friend told me to try the Cuticura Remedies. She said she cured her little girl's ear, which was nearly eaten up with the eczema. I got a cake of Cuticura Soap and one box Cuticura Ointment, and I washed him all over with the Cuticura Soap and applied the Cuticura Ointment and he at once fell into a sleep, and he slept with ease for the first time since two months. When he awoke I applied it again, and it gave him much ease, and after three applications the sores began to dry up and improvement began to show, and in a few days the hide from the bottom of his feet and inside of his hands began to peel off. I only used one cake Cuticura Soap and one box Cuticura Ointment to complete the cure of the dreadful disease, and in just two weeks from the day I commenced to use the Cuticura Remedies my baby was entirely well. The treatment only cost me 75c., and I would have gladly paid $100 if I could not have got it any cheaper. I feel safe in saying that the Cuticura Remedies saved his life. He is now a boy of five years, and is as well as any child you ever saw. Mrs. Zana Miller, Union City, R. R. No. 1, Branch Co., Mich., May 17, 1906."

IMPROVEMENTS ON STREETS.

Many Depressions Are Being Filled Which Adds Greatly to Comfort.

The public congratulates the street committee of the City Council on at last getting to work in the matter of repairing the streets, many of which have been in impassable condition for several months.

The last recent heavy rain absolutely settled the matter of even crossing many of the thoroughfares, with the result that comment became so general that the street committee actually got to doing something, and have had a force at work filling in horrible depressions for the past two or three days.

But this is like the old story of putting up the bars after the horse is gone. For months there have been depressions in the streets in various sections of the city which would prove a disgrace to a country road, and no attention had been paid to them. The stench from some of these "mud-holes" was sufficient to cause sickness of all kinds, which it did. No attention was paid to them until the time arrived when it was either to "rise up in arms" or swim the offensive pools of water which they held.

It seems to be the general opinion of the public that improvements should be placed without preference throughout the city, and that those places which go for an indefinite period without repair should have equal attention, which would give them equal advantage.

Rich Traces of Radium.

Geneva, Sept. 26.—Papers state that Professor Joukowsky has completed a geological examination of specimens of the strata collected from the boring for the Simplon tunnel. He found rich traces of radium, indicating larger deposits than any hitherto discovered in Europe. He believes that the presence of the substance explains the phenomenon experienced in building the tunnel.

How to Avoid Appendicitis.

Most victims of appendicitis are those who are habitually constipated. Orino Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels, and restores the natural action of the bowels. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. J. W. McCollum & Co.

NEW CITY DIRECTORY.

Burtz' Gainesville Directory Will Be Before Public at Proper Time.

The new Gainesville Directory for 1907-8 of which Jesse E. Burtz, "Never Sleeps," is the owner, compiler and publisher, will be out at the proper time, and will contain a great deal of information necessary to the convenience of a town the size of Gainesville. It will not only contain a complete residence directory, but a general and business and professional directory as well, and is bound to prove of much benefit to the public generally.

The publisher, who is the originator of the directory system here, and who has always published the directories of Gainesville, is thoroughly posted on the city, having had the advantage of a residence here for the past eight years. He is devoting his personal attention to all details of the book, and promises that there will be as few errors in this work as ever occurred in any similar book anywhere.

It was at first proposed to publish this book between the first and middle of October, but the task of compiling same is a hard one, and more extensive and difficult than was at first anticipated, hence it will be impossible to finish the work by that time. It will probably be the first of November before the new directory will go before the public.

The publisher of this book, which is a great pride, is determined to make the work absolutely accurate as far as a directory can be made. He will give a census of the city, showing an increase for the past two years, since he took the last census and published the last book, of from 25 to 35 per cent. The population (actual) in the current number of the directory, which was published two years ago, registers 2,254.

DESPERATE BATTLE.

Revolvers, Rifles and Shotguns Used in Backwoods of Mississippi.

New Orleans, La., Sept. 26.—When Julius Peterman, a young lumberman, was brought to New Orleans and placed in a hospital here the story of a desperate revolver, rifle and shotgun battle several days ago in the backwoods of southwest Mississippi was brought to light.

Julius Peterman and his brother Charles were arrayed against David Moye, Jr., and Thomas Mitchell.

Mitchell was killed and Julius Peterman was seriously wounded.

The trouble grew out of the Petermans' charging Moye with cursing in front of their home.

Prohi Election for Decatur, Ala.

Decatur, Ala., Sept. 26.—Morgan county is flooded with petitions asking that a prohibition election be called. It is thought that more than the required number of names will be secured before the week is over and that the petitions will be filed with Probate Judge William E. Skeggs early next week. In Decatur many are signing these petitions who opposed the dispensary movement last fall and who have been regarded as favoring open saloons.

Female Weakness

"Last Fall," writes Mrs. S. G. Bailey, of Tunnelton, W. Va., "I was going down by inches, from female disease, with great pain. After taking Cardui, Oh! My! How I was benefited! I am not well yet, but am so much better that I will keep on taking Wine of Cardui till I am perfectly cured."

Despite the envious attacks of jealous enemies and rivals, Cardui still holds supreme position today [as in the past 70 years] for the relief and cure of female diseases. It stops pain, tones up the organs, regulates the functions, and aids in the replacement of a misplaced organ.

NOTICE OF APPLICATION FOR LETTERS PATENT.

Notice is hereby given that on Tuesday, the eighth day of October, A. D. 1907, the undersigned will apply to His Excellency, N. B. Broward, Governor of the State of Florida, for Letters Patent on the charter proposed accompanying this notice.

J. B. PADGETT,
W. R. THOMAS,
R. E. HILL, JR.

Under and pursuant to the requirements of the statutes of the State of Florida, we, the undersigned, W. R. Thomas, J. B. Padgett and R. E. Hill, Jr., desiring for ourselves, our associates and successors, to form and be incorporated as a corporation, do hereby give notice that we shall apply to the Governor of the State of Florida for Letters Patent.

The proposed charter is as follows:

First—The corporate name of said corporation shall be "THE W. R. THOMAS LIVE STOCK COMPANY," located and having its principal office and place of business at Gainesville, Florida.

Second—The general nature of the business or businesses to be engaged in or transacted by said company shall be as hereinafter mentioned and set forth, viz: Transacting a general livery and sales stable business; buying and selling at wholesale or retail horses, mules, buggies, wagons and harness, live stock and cattle of every character; goods, wares and merchandise; the purchase and sale of real estate; to have full power to exercise by its board of directors, or duly authorized officers or agents, subject to law, all such incidental powers as may be necessary to carry on and conduct said business, and for these purposes to have and possess all the rights, benefits, privileges and immunities incident to and given under the laws of this State to a corporation of such character.

Third—The amount of the capital stock of this corporation shall be One Hundred Thousand ($100,000) Dollars, to be divided into one thousand (1,000) shares of the par value of One Hundred ($100) Dollars each, payable in lawful money of the United States or in property, labor or services at a just valuation to be fixed by the board of directors at a meeting called for such purpose.

Fourth—The term for which this corporation shall exist shall be ninety-nine years.

Fifth—The business of the said corporation shall be conducted by the following officers, viz: a President, Vice-President, Secretary and Treasurer, and a board of not less than three nor more than nine directors, of which board of directors the President, Vice-President, Secretary and Treasurer shall be members and stockholders, and all officers of said corporation shall be chosen by the stockholders. The office of Secretary and Treasurer may be held by one and the same person. The board of directors shall make the by-laws of the corporation at any special meeting called for that purpose. The officers and directors shall be elected annually at the annual stockholders' meeting, the first of which shall be in the company's general office in Gainesville, Florida, at 10 o'clock a. m., on the first Tuesday in January, 1908, and annually thereafter, and until such first election the names of the officers who are to conduct the business of the corporation until those elected at the first election shall be qualified, are as follows, viz: J. B. Padgett, President; W. R. Thomas, Vice-President, and R. E. Hill, Jr., Secretary and Treasurer. The board of directors shall be J. B. Padgett, W. R. Thomas, R. E. Hill, Jr., and J. A. Maultsby, until their successors shall be elected.

Sixth—The highest amount of indebtedness or liability to which the corporation shall at any time subject itself shall not exceed the amount of its capital stock at such time actually paid in.

Seventh—The names and residences of the subscribing incorporators to this corporation, together with the amount of stock subscribed by each are as follows, viz:

J. B. Padgett, Gainesville, Florida, 275 shares.

W. R. Thomas, Gainesville, Florida, 275 shares.

R. E. Hill, Jr., Gainesville, Florida, 1 share.

J. A. Maultsby, Campville, Florida, 1 share.

The amount of stock so subscribed exceeds ten per cent of the capital stock authorized under this charter.

Ninth—The capital stock remaining in the treasury at the time of the issuance of Letters Patent shall not be sold or otherwise disposed of except by the mutual consent of the stockholders of this corporation holding ninety per cent of the capital stock outstanding and issued.

The above and foregoing charter is subscribed to by the following persons, viz:

W. R. THOMAS,
R. E. HILL, JR.
J. B. PADGETT.

State of Florida.
Alachua County.

Before me personally appeared J. B. Padgett, W. R. Thomas and R. E. Hill, Jr., to me well known and known to me to be the identical persons who subscribed to the above charter, and each severally acknowledged before me that the above and foregoing signature in his signature.

In witness whereof I have hereunto set my hand and affixed my official seal this 2nd day of September, 1907.

(Seal.) W. S. BROOME,
Notary Public, State of Florida at Large. My commission expires December 14th, 1908.

HOW BONNER WON SUCCESS

The career of Robert Bonner, the veteran publisher, furnishes a signal illustration of the value of persistent and ingenious advertising. When he began the publication of the paper whose phenomenal success brought him fame and fortune, he did not wait for the people to find out, slowly and gradually, the interesting features of his journal.

He forced his enterprise upon public attention by a systematic lavishness of expenditure for advertising which at that time was without precedent or parallel. Whole pages of daily newspapers were secured at high prices to blazon forth the merits of his undertaking.

From one end of the country to the other the names of Bonner and his Ledger were made familiar to the people by constant repetition.

Conservative publishers, jogging along in the ruts of old routine, prophesied bankruptcy and ruin for this unconventional innovator, but Bonner kept on spending a large share of his receipts in buying publicity, and those receipts increased with startling rapidity.

Every dollar disbursed in this way brought in more dollars until croakers were confounded and pessimists in this particular branch of business silenced by his tremendous success.

The lesson is one that is as well worth heeding today as it was forty years ago.—Philadelphia Bulletin.

Large space in this paper is one of the best investments a merchant can make.
